TOTAL % (Major Program)	18.2%		23.1%		2.8%		40.1%		15.8%		100.0%	

Source: The California Department of Education (CDE) Survey on Statewide Participation in Subsidized Child Care; Time Period: Data from July 1999 – June 2000.

Note: Data are unweighted. This table contains no missing or unknown data. Due to rounding error, 'Column' and 'Row' totals may not equal 100.0%.

¹ The 'Attrition Month-Year' represents the last time a family received subsidized child care services between July 1999 and March 2000. For the purposes of this survey, families were determined to have left the program if they did not receive subsidized care from an agency for three months and did not subsequently return. Therefore, attrition rates are only calculated through March 2000 since data were not collected after June 2000. Families that received subsidized child care services continuously between July 1999 and June 2000 are excluded from this analysis.
